

PREPARING iPad

- iPads need to be unwrapped and removed from packaging
- iPads need to be updated to the most recent iPadOS
This may require being connected to power. Please have charging cables available.
- If asset tags are used on iPads, install tags prior to installing iPad into Logitech® Rugged Combo

RUGGED COMBO 3

For a video of assembly and disassembly instructions, use the QR code or go to [youtube.com/watch?v=DavtBnrXsvg](https://www.youtube.com/watch?v=DavtBnrXsvg).

ASSEMBLY 30 seconds or less

- 1 Review any documentation that comes with the packaging
- 2 Place your iPad inside the case
- 3 Ensure the camera and camera opening are lined up
- 4 Press down on all four corners to secure it
- 5 Pull out the adjustable kickstand and fold the keyboard downward
- 6 If using, place your Logitech Crayon or Apple Pencil inside the magnetic latch

DISASSEMBLY 5 seconds

- 1 One at a time, press each of the four corners of the case
- 2 Take iPad out of the case

STORAGE AND TRANSPORTATION

When transporting or storing Rugged Combo 3 iPad units, stacking vertically can minimize weight and pressure on units, which will reduce the risk of damage. If horizontal stacking is needed, do not stack more than four units on top of each other.

CLEANING

Spray cleaning liquid onto a cloth and wipe, do not spray directly onto the case. Microfiber cloths can be used effectively with just water, however non-toxic or chemical cleansers that do not contain bleach can be used. Ensure the case is completely dry before storing.
